

9500 Series Digital Deskphones

9500 Series Digital Deskphones

Small and midsize businesses rely on these high-quality deskphones that suit virtually every role within business. Get superior audio and a full range of communications and collaboration features built into your deskphones.

Reliable Phone Communications for Midsize Businesses

MADE FOR DIGITAL AND IP ENVIRONMENTS

Now small and medium-sized businesses can deliver highly reliable, high quality, communication solutions for a range of user types within the organization. Avaya 9500 Series Digital Deskphones can be deployed in mixed digital/IP telephony environments and are an ideal choice for companies wanting to add digital endpoints with a consistent look and user experience to their existing phones.

Smart design, crystal-clear sound, and productivity features make these phones an easy choice. Combining the features of traditional deskphones and the latest user experience, the 9500 Series provides advanced capabilities in competitively priced models.

9508 Digital Deskphone

This phone has a large, easy-to-read display, and provides multiple feature keys, speed dials, and call logs. This phone provides 24 configurable feature buttons on three levels, a two-way speakerphone, active call appearances for easier call handling, wired and wireless headset support, a context-sensitive interface, and a four-way navigation cluster.

9504 Digital Deskphone

The 9504 Digital Deskphone is designed for light phone users with straightforward needs. It offers 12 administrable feature buttons, high-quality speakerphone, wired and wireless headset support, a context-sensitive interface, and a four-way navigation cluster.
